CPESN NY, LLC Pharmacies on Accelerated Path for Improved Patient Care as Another Store Receives National Diabetes Accreditation.

Buffalo, N.Y. April 1, 2022 – CPESN NY LLC, an independent practice association of pharmacies focused on advancing community-based pharmacy practice, is excited to share another pharmacy's diabetes education program that has received recognition and accreditation through the Association of Diabetes Care & Education Specialists ([ADCES](#)). [Mt. Carmel Pharmacy](#) (Bronx, NY) joins the select list of pharmacies qualified to offer proven diabetes management programs to their patients.

With backing from an NYS Department of Health grant-funded project, a specific group of pharmacies engaged in a diabetes accreditation program (ADCES), allowing for increased payer and provider relationships and enhanced patient care. An estimated 1.6 million, or 10.5% of the adult population diagnosed with diabetes in NYS ([BRFSS 2019](#)) has drastically made programs like Diabetes Self-Management Education and Support (DSMES) critical to improving patient outcomes.

These transformational community pharmacies' programs will allow people living with diabetes to have the integral support team they need to take control and better their quality of life. As more clinical opportunities and services arise, pharmacies will continue evolving to expand new pathways and take on a crucial leading role in diabetes management.
